In his free time, Rajeev enjoys music, movies and reading

With a career spanning more than 30 years Rajeev has an extensive experience in Risk Management, Consulting and Financial Services. A very meticulous individual Rajeev has a keen eye for detail - an essential trait for a Risk Manager. Rajeev's ability to grasp the business quickly enables him to provide holistic insights to business risks.

Rajeev Tanna, based in Mumbai, India, currently serves as the Head of Risk Management and Internal Compliance at Tata Consulting Engineers (TCE). In this pivotal role, he is responsible for the comprehensive oversight of risk management practices, ensuring rigorous monitoring, reporting, and adherence to internal systems, tools, and process compliance. His duties extend to being accountable to both the Board and Executive Committee of TCE. Additionally, Rajeev plays a crucial role in developing and implementing customised risk frameworks, embedding risk management concepts into strategic planning and proactively identifying and mitigating risks across the company's spectrum of operations, with a particular emphasis on bids and projects.

Before his tenure at TCE, which began in 2018, Rajeev honed his skills at Cairn, the Oil & Gas Strategic Business Unit (SBU) of Vedanta Limited, from 2015 to 2018. There, his responsibilities encompassed developing and implementing a risk management framework across the strategic business units and projects. His rich background in risk management also includes a significant period from 2009 to 2015 at the GMR Group, where he was instrumental in developing and deploying the Enterprise Risk Management (ERM) framework across the group's various projects and assets. This role also covered governance and the cultivation of a risk-aware culture within the organisation. Additionally, Rajeev has accumulated a wealth of experience through various risk and consulting roles at esteemed firms such as Deloitte Touche Tohmatsu and Aon Global Insurance Services.

Rajeev's contributions to TCE have been instrumental in fostering a culture that is deeply aware of risk management. His expertise in the field has established him as a thought leader, evident through his active participation and recognition as a speaker and panel member at numerous esteemed forums on risk management, including engagements with CII, NIA, and NMIMS, among others.

Moreover, Rajeev holds the distinguished position of chair of the India Regional Group of the Institute of Risk Management, UK, further highlighting his commitment and contribution to the field of risk management on both a national and international scale.
