

Tata Consulting Engineers Transforms Infrastructure in Puri Through the ABADHA Scheme

20th November 2024, Puri: Tata Consulting Engineers (TCE), a top multidisciplinary engineering consultancy, played a pivotal role as the Programme Management Consultant (PMC) having scope of Architectural design, Detailed design and Project Management under the ABADHA Scheme, successfully delivering and overseeing transformative projects in Puri. This work highlights TCE's commitment to shaping the future and advancing urban infrastructure.

This initiative aims to not only bolster the city's heritage and cultural significance but also provide essential amenities that cater to both residents and the inflow of tourists. With a focus on development, these projects are designed to improve accessibility, enhance the experience for visitors, and preserve the rich cultural landscape of Puri.

Some of the projects undertaken are:

- **Puri Municipal Market, Bada Danda:** This project revitalised the local market infrastructure. The five-floor building, featuring parking facilities and numerous shops, now provides modern amenities and enhanced shopping experiences for the community.
- **Multi-Level Car Parking at Jail Road:** This four-floor parking facility addresses the critical need for organised parking in Puri. It includes extensive parking spaces and shops, reducing congestion and enhancing urban mobility.
- **Mahodadhi Market Complex, Mochi Sahi:** This project created a vibrant business hub. The six-floor complex includes parking, shops, and office spaces, boosting local commerce with modern facilities.
- **Pandit Utkalmani Gopabandhu Das Birthplace Memorial and Museum, Suando:** This comprehensive renovation project spans 14.7 acres. It includes a memorial, museum, visitor centre, and landscaping, preserving cultural heritage and transforming the site into a significant tourist and educational destination.
- **Odia University:** This project, which covers 8.6 acres and includes various educational and administrative facilities, enhances educational infrastructure. With specific objective for development of Odia language, it fosters academic excellence and provides state-of-the-art amenities for students and faculty.
- **JBPC and Shree Setu:** This is a significant infrastructure initiative to improve connectivity and urban development in Puri, contributing to the city's growth and modernisation.

PRESS RELEASE

- **Musa River Development Phase I:** This project, focused on enhancing riverfront development and environmental conservation, aims to improve the ecological and aesthetic value of the Musa River.
- **Samangha Parking:** This project expands parking infrastructure to meet the growing urban demands, alleviating congestion and improving accessibility in Puri.
- **Dharmshala, Baselisahi:** Providing accommodation and amenities for pilgrims and visitors, this project enhances the religious tourism experience, supporting the local economy and cultural heritage.

Amit Sharma, Managing Director & CEO of Tata Consulting Engineers, said, “Our ongoing projects in Puri exemplify our commitment to sustainable development and engineering excellence, ensuring that we honour the city’s rich heritage while providing modern amenities. Our unwavering commitment to innovation and excellence drives us to contribute to the nation’s advancement while meeting the evolving needs of our clients and stakeholders.”

There are also many other projects in-progress at Puri and Tata Consulting Engineers is dedicated to delivering high-quality infrastructure that not only enhances Puri’s appeal as a tourist destination but also improves the quality of life for its residents. TCE’s Program Management Consultancy under the ABADHA Scheme has truly transformed Puri’s urban landscape and set new benchmarks in project execution and infrastructure development.

The company is focused on completing its in-progress projects efficiently while ensuring a diverse range of developments across various sectors thereby contributing holistically to Puri’s growth.

About Tata Consulting Engineers (TCE):

Tata Consulting Engineers Limited is one of India’s largest engineering consulting organisations, providing strategic solutions for complex Infrastructure, Power, and Resources projects. With over 60 years of experience, TCE delivers end-to-end project services, from conceptualisation to commissioning, while focusing on sustainability, innovation, and digital technologies. TCE also operates as an Owner’s Engineer and Project Consultant (OEPC), guiding projects with a comprehensive approach that ensures quality, efficiency, and alignment with client objectives.
